Native Plants for a Lowcountry Landscape *Thursday, February 11, 2021 at 11:00 AM*

Laura Lee Rose of the Clemson Extension in Beaufort County will be presenting a program on how to use native plants to attract wildlife and how to sustain healthy ecosystems. Ms. Rose has earned a B.S. Horticulture from Clemson University, teaches Master Gardener classes and has authored several publications.

We hope you will watch this informative presentation which will be live streamed from the CBY homepage and Facebook page.

This informative program, sponsored by CBY Sisterhood, is for the entire Beaufort County community.
